

Thin Film Chip Power Splitter RN 1632E Series

This chip resistor power splitter is ideal for use at high frequencies due to low parasitic capacitance and inductance.

- Frequency to 2.5GHz
- 1206 Size
- Power to 125mW

Specifications:

Resistance Value R_1, R_2, R_3	50Ω
Tolerance	1%
Power Rating	125mW
Attenuation	3dB
Impedance	50Ω
VSWR	<1.3
Frequency Range	DC - 2.5GHz
Operating Temperature Range	-55 to 125°C
