HE8807SG/FL

GaAlAs Infrared Emitting Diodes

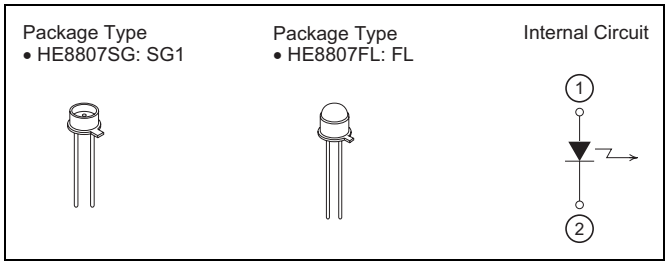
ODE-208-050 (Z)
Rev.0
Oct. 30, 2006

Description

The HE8807SG/FL are single heterojunction structure GaAlAs light emitting diodes with a wavelength of 880 nm.

Features

- High output, high efficiency
- Narrow spectral width
- Sharp radiation directivity (HE8807FL)
- Wide radiation directivity (HE8807SG)
- High reliability



Absolute Maximum Ratings

(T_C = 25°C)

Item	Symbol	Ratings	Unit
Forward current	I_F	200	mA
Reverse voltage	V_R	3	V
Operating temperature	Topr	–20 to +85	°C
Storage temperature	Tstg	–40 to +100	°C

Optical and Electrical Characteristics

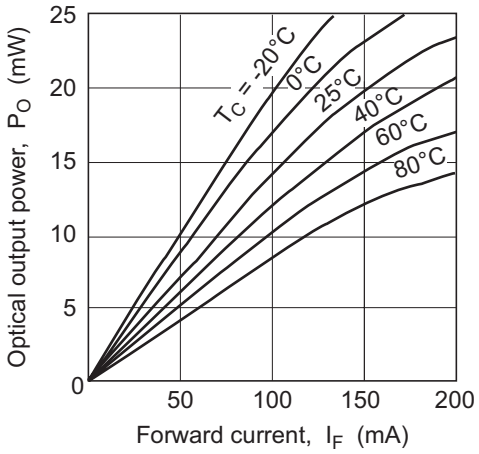
(T_C = 25°C)

Item		Symbol	Min	Typ	Max	Unit	Test Conditions
Optical output power	HE8807SG	P_O	10	20	—	mW	I_F = 150 mA
	HE8807FL	Pf *	0.5	1.0	—		I_F = 20 mA
Peak wavelength		λp	800	880	900	nm	I_F = 150 mA
Spectral width		Δλ	—	30	60	nm	I_F = 150 mA
Forward voltage		V_F	—	1.7	2.3	V	I_F = 150 mA
Reverse current		I_R	—	—	100	μA	V_R = 3 V
Capacitance		Ct	—	10	—	pF	V_R = 0 V, f = 1 MHz
Rise time		t_r	—	20	—	ns	I_F = 50 mA
Fall time		t_f	—	20	—	ns	I_F = 50 mA

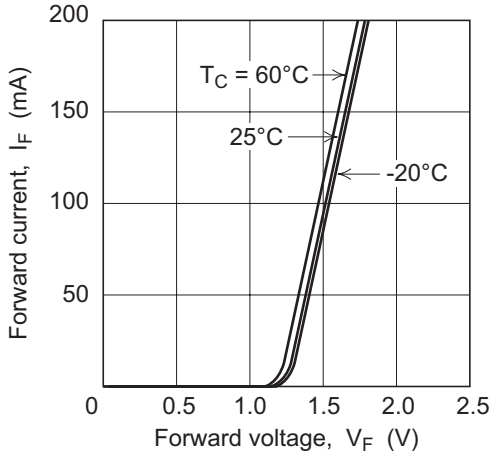
Note: Pf specification: The optical output within 9 degrees of the acceptance angle.

Typical Characteristic Curves

Optical Output Power vs. Forward Current
(HE8807SG)



Forward Current vs. Forward Voltage



Radiation Directional (HE8807SG)

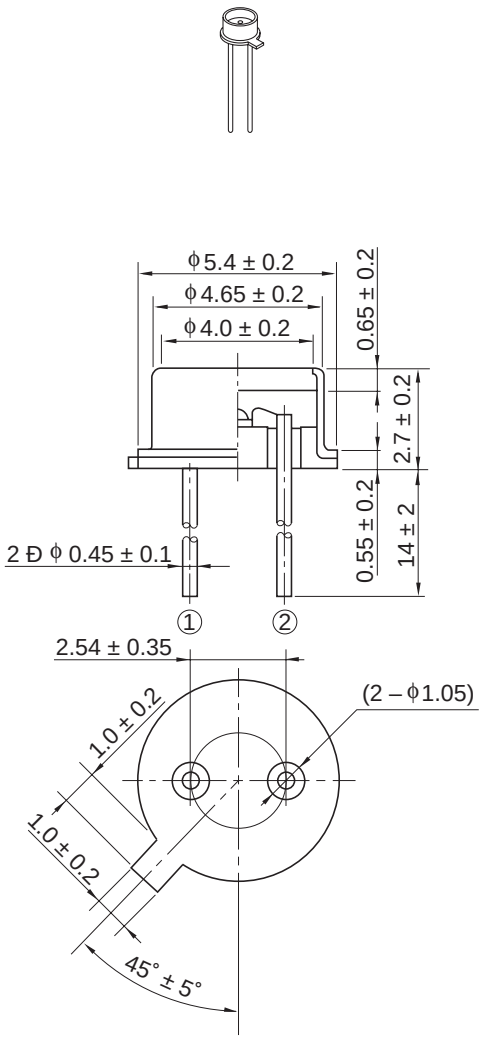
Package Dimensions

As of July, 2002

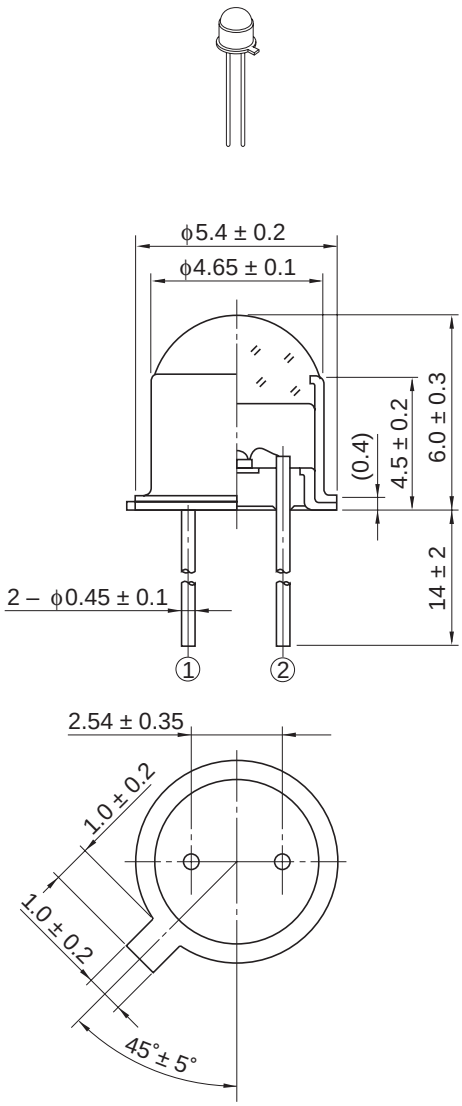
Unit: mm



OPJ Code	IR/SG1
JEDEC	—
JEITA	—
Mass (reference value)	0.25 g

As of July, 2002

Unit: mm



OPJ Code	IR/FL
JEDEC	—
JEITA	—
Mass (reference value)	0.27 g

Cautions

1. Opnext Japan,Inc.(OPJ) neither warrants nor grants licenses of any our rights or any third party's patent, copyright, trademark, or other intellectual property rights for information contained in this document. OPJ bears no responsibility for problems that may arise with third party's rights, including intellectual property rights, in connection with use of the information contained in this document.
2. Products and product specifications may be subject to change without notice. Confirm that you have received the latest product standards or specifications before final design, purchase or use.
3. OPJ makes every attempt to ensure that its products are of high quality and reliability. However, contact our sales office before using the product in an application that demands especially high quality and reliability or where its failure or malfunction may directly threaten human life or cause risk of bodily injury, such as aerospace, aeronautics, nuclear power, combustion control, transportation, traffic, safety equipment or medical equipment for life support.
4. Design your application so that the product is used within the ranges guaranteed by OPJ particularly for maximum rating, operating supply voltage range, heat radiation characteristics, installation conditions and other characteristics. OPJ bears no responsibility for failure or damage when used beyond the guaranteed ranges. Even within the guaranteed ranges, consider normally foreseeable failure rates or failure modes in semiconductor devices and employ systemic measures such as fail-safes, so that the equipment incorporating OPJ product does not cause bodily injury, fire or other consequential damage due to operation of the OPJ product.
5. This product is not designed to be radiation resistant.
6. No one is permitted to reproduce or duplicate, in any form, the whole or part of this document without written approval from OPJ.
7. Contact our sales office for any questions regarding this document or OPJ products.

1. The laser light is harmful to human body especially to eye no matter what directly or indirectly. The laser beam shall be observed or adjusted through infrared camera or equivalent.
2. This product contains gallium arsenide (GaAs), which may seriously endanger your health even at very low doses. Please avoid treatment which may create GaAs powder or gas, such as disassembly or performing chemical experiments, when you handle the product.
   When disposing of the product, please follow the laws of your country and separate it from other waste such as industrial waste and household garbage.
3. Definition of items shown in this CAS is in accordance with that shown in Opto Device Databook issued by OPJ unless otherwise specified.
