

### 800-2500 MHz 10 Watt Linear Power Amplifier FOR LAB & WIDEBAND APPLICATIONS

Model **SM0825-40** is an 800 to 2500 MHz solid state GaAs amplifier designed for multi-purpose use in wireless markets. **With 1.7 GHz of bandwidth**, this small amplifier can be used in most wireless applications. This module provides 39 dB of linear gain, +40 dBm of output power at P1dB, and an OIP3 of +50 dBm. The gain slope over the full band is just  $\pm$  0.75 dB. It comes standard in modular form with six (6) thru-holes.

#### **Features**

- Mis-Match Protected
- Single Power Supply
- Over/Reverse Voltage Protection
- Thermal Protection with Auto Reset

### **Options**

- Forward Power Detection
- Fan
- Pulse Control for TDD applications with <µs rise/ fall time
- Logic On/Off Control
- Integral Heatsink

#### **Configurations**

- Module
- Laboratory Unit
- 19" Rack

| Parameter                                | Specification                        |
|--|--------------------------------------|
| Frequency Range                          | 800 – 2500 MHz                       |
| Pout (P1dB)                              | + 40 dBm                             |
| Third Order Intercept<br>Point           | + 50 dBm (typ.)                      |
| Linear Gain                              | $39 \text{ dB} \pm 1 \text{ dB}$     |
| Gain Slope over<br>Full Band             | ± .75 dB                             |
| Gain Change over<br>Temperature          | ± .5 dB                              |
| Input/Output Return<br>Loss              | -16 dB /-11dB                        |
| DC Supply, Operating                     | + 12 Volts @ 5.5 Amperes             |
| Mechanical Dimensions (Without heatsink) | 6.7 x 4.0 x 0.8 in.                  |
| RF Connectors                            | SMA Female                           |
| Operating Temperature                    | 0°C to +55°C                         |
| Operating Humidity                       | 95% Non-condensing                   |
| Operating Altitude                       | Up to 10,000 feet above<br>Sea Level |

800-2500 MHz 10 Watt Linear Power Amplifier FOR LAB & WIDEBAND APPLICATIONS

| Pin      | Description                   | Values                   |
|----------|-------------------------------|--------------------------|
| RF Input | Input Connector (SMA Female)  | +1 dBm, typical          |
| RF OUT   | Output Connector (SMA Female) | +40 dBm @ P1dB           |
| GND      | Ground Turret                 |                          |
| +12VDC   | DC Input Voltage              | + 12 Volts @ 5.5 Amperes |
| FWD      | Forward Power Detector        | + 5 Volts @ +40 dBm      |

Specifications subject to change without notice.
