The modular MTS terminal block Series for printed circuit boards satisfies the user's mounting needs with the following possibilities:

- using individual single mold terminal blocks from 2 to 25 poles;
- combining single mold terminal blocks from 2 to 25 poles to obtain any number of poles; all MTS products, including single mold versions, have dovetail capabilities;
- minimizing the stock by storing only some base terminal blocks (ex. 2, 3... 25 poles) to enable combinations described above;
- being included in a custom Kit package to simplify the product management (part-numbers reduction), to minimize the stock, to improve the assembly and to reduce production errors.

MTS with Pegs

The Straight 2 poles MTS is also available with clamping pegs molded in the plastic housing to secure it to the board.

This solution increases the connector tightening torque and allows it to pass the most restrictive guidelines set by international standards.

La morsettiere modulare Serie MTS per circuiti stampati soddisfa le esigenze di montaggio dell'utilizzatore; infatti è possibile:

- utilizzare singolarmente le morsettiere base monolitiche da 2 a 25 vie;
- comporre le morsettiere base monolitiche da 2 a 25 vie per ottenere qualsiasi numero di vie;
- gestire uno stoccaggio minimo di morsettiere base (es. 2 - 3... 25 vie) per ottenere quanto sopra;
- utilizzare le confezioni Kit che permettono una semplificazione della gestione del prodotto (riduzione dei part-number), del magazzino, dell'assemblaggio, nonché una riduzione dei rischi d'errore.

MTS con Piolini

La morsettiere MTS 2 vie Diritto è disponibile anche con piolini di ancoraggio a scheda, integrati nel corpo plastico.

Questa soluzione consente di scaricare la coppia di serraggio a scheda e di superare le prescrizioni più restrittive richieste da alcune normative internazionali.
