SYSTEM DYMO® 4000

Technology at your fingertips.

Never before has there been an office label making machine so easy to use and yet so versatile as the new Dymo 4000 electronic label maker.

The new Dymo 4000 is packed full of features designed to make self-adhesive label making so very much easier than it has ever been while increasing the style and improving the quality of your labelling

In developing the new Dymo 4000 Essekte, leaders in labelling technology, have entered a new era of labelling technology in making available to the office user a machine that compliments the modern office in looks, efficiency and versatility. Dymo 4000 is totally portable (it weighs just 670g) and it works with equal efficiency from battery or mains power

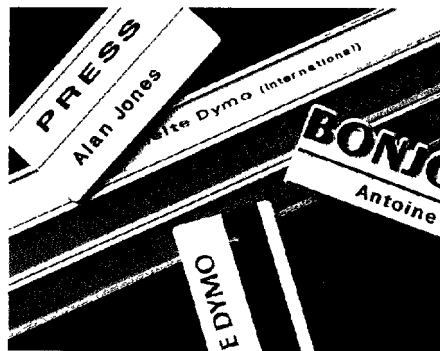

The QWERTY keyboard and the 15 character capacity LCD display screen offers complete user friendliness and increased label productivity.

Dymo 4000 labels are delivered in a choice of 7 different type sizes, 3 type styles and available in 10 tape colour combinations. The tape has a release backing and to use you simply place the self-adhesive label into position onto any office, home or industrial item that needs labelling or marking for identification purposes.

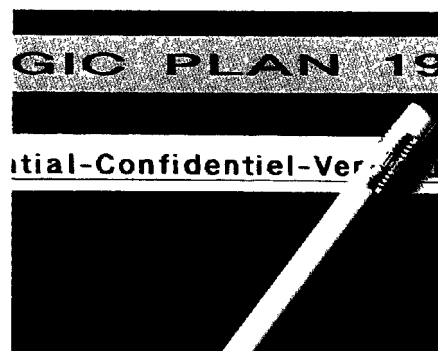

The new Dymo 4000 is the last word in office label making efficiency. To prove it to yourself let your fingers do the talking.

15 Character Display. Allows you to see your message before printing.

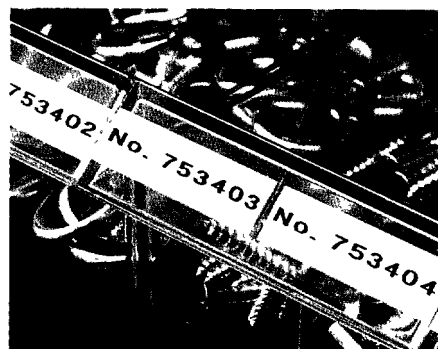

Phrase Memory. Store your frequently used messages (up to 128 characters).

A choice of 7 print sizes. Which can be mixed on the same message, as required.

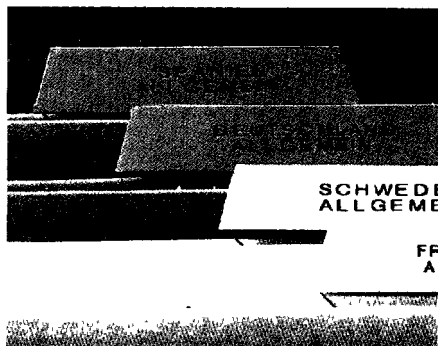

Underlining. All or part of your message, to make a point

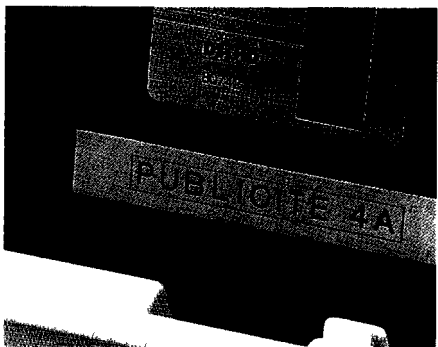

Sequential Numbering. Create a series of numbers with the Dymo 4000. You can also produce 1-99 copies of your message at the touch of a button

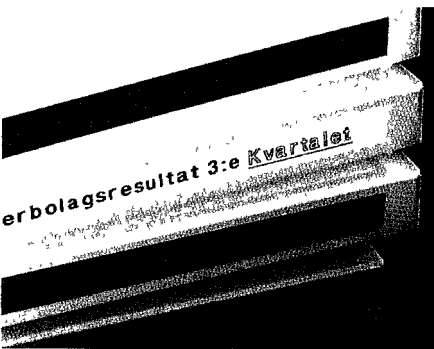

Double Line Printing. Ideal where space is limited.

Boxing. Add emphasis to your message by boxing all or part of the text.

A choice of 3 styles. Choose from standard, bold or outline and even mix styles within the same label for a more professional presentation.

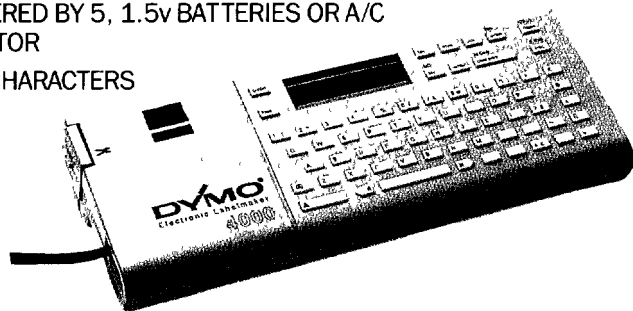

Top Loading Cassette Compartment. Allows easy changing of tape cassettes.
