H01N2-D WELDING CABLE

CABLE

Plain copper conductors with separator over the conductor with a neoprene chlorinated rubber compound, oil resistant outer sheath in black.

TECHNICAL INFORMATION

Harmonized welding cable with rubber sheath according to VDE 0282

Temperature range

Flexing -25degC to 80degC

Fixed installation -40degC to 80degC

Nominal voltage 100V

Test voltage 1000V

PART NO:	CROSS SECTION	CONDUCTOR	DIAM (MM)
3138495	16 SQ MM	512/0.2	9.0-11.5
3138501	25 SQ MM	800/0.2	10.0-13.0
3138513	35 SQ MM	1120/0.2	11.5-14.5
