## SMT-InGaAs PIN-Amp Module Series

OD-8452N series are new surface-mount low cost InGaAs-PIN-PD modules with Pre-Amp. These devices can achieve stable operation over wide temperature range of -40 to +85°C.

These modules have detachable pigtail interface and packaged in 8 pin surface-mount package. Therefore the modules can be soldered like an ordinary IC by standard I.R. reflow soldering process.

OD-8452N series can be operated at speed 155/622 Mb/s and are especially suitable for the use of the subscriber loop, SONET and FITL.

### 1. FEATURES

- Surface mountable using I.R. reflow solder
- Small size flat ceramic package (7.6 x 15.2 x 3 mm)
- High sensitivity
- Internalize low noise GaAs TIA
- Internalize supply bypass capacitor
- Wide operating temperature range : -40 to +85°C
- Detachable pigtail interface

### 2. APPLICATION

- Subscriber loop
- Telecommunications
- Data communications
- Local area networks
