

FGS-2800 24 24: 1

## 28-Port Web Smart Fast Ethernet Switch, 2 x Gigabit SFP/RJ45 Combo, 2 x Gigabit RJ45

LevelOne FGS-2800 is Fast Ethernet switch with 24 10/100Mbps ports and 4 10/100/1000Mbps Ports shared 2 SFP(mini GBIC) ports, providing you a cost-effective, space-saving solution for expanding your network. making you be able to transfer high bandwidth-needed files larger and faster in an easy way. And the two gigabit SFP ports allow you to add fiber-optic connectivities for connecting to other network switches to obtain long-distance communication.

This FGS-2800 device provides the easy management function, the network administrator can configure the status and the port function setting of the device through the Web-Based UI. When installing the auto-discovery management tool helps network managers to search and access those switches on LAN easily. Therefore, network managers can access switches that support autodiscovery on LAN without memorizing IP address.
