Mercury OC30T is 36.2x27.2 mm 5 pin solder sealed metal package with 25.4x17.8 mm pin-to-pin spacing high stability low aging OCXO. Besides standard AT cut crystal, users can also choose SC cut crystal for better performance. 50 ohm load sine output is available as OC30E series. For same package size but with standard Eurocase OCXO pin configurations, please refer to OC31T series.
