

Keysight Technologies BenchVue Power Analyzer App

Data Sheet

Simplified Measurement Viewing, Control and Capture

Keysight BenchVue software for the PC reinvents your bench testing by making it simple to connect and record results with your instruments with no programming. You will derive answers faster than ever by easily viewing, logging and exporting measurement data and screen images with a few clicks from a single environment.

Use BenchVue to:

- Visualize multiple measurements simultaneously
- Easily log data, screen images and system state
- Recall past state of your bench to replicate results

Save time with:

- Fast measurement data export in desired formats
- Rapidly prototype custom test sequences
- Quickly access manuals, drivers, FAQs and videos

From anywhere:

- Monitor and control your bench from mobile devices

BenchVue Capabilities and Available Apps

BenchVue provides a wide array of capabilities depending on the instrument application within BenchVue being used. These capabilities will automatically vary based on the functionality of the instrument types and models connected to your PC running BenchVue software. Optional Pro version upgrades are available to extend BenchVue's functionality.

BenchVue consists of different applications tailored to streamline your measurement tasks, and the most commonly used are included in every no cost download of BenchVue (BV0000A). Additional apps can be easily downloaded and installed via the Apps tab within BenchVue.

BenchVue app name	No cost version	Optional Pro upgrade
Test Flow	Included in BV0000A (demo mode only)	BV1001A
Digital Multimeter	Included in BV0000A	BV0001A
Function Generator	Included in BV0000A	BV0002A
Power Supply	Included in BV0000A	BV0003A
Oscilloscope	Included in BV0000A	BV0004A
Spectrum Analyzer	Available in BV0000A	BV0005A
Data Acquisition	Available in BV0000A	BV0006A
Power Meter	Available in BV0000A	BV0007A
Network Analyzer	Available in BV0000A	N/A
Electronic Load	Available in BV0000A	N/A
Power Analyzer	Available in BV0000A	N/A

Plug and Play Instrument Control

Connecting and controlling an instrument to BenchVue is as simple as plugging it in and launching the BenchVue instrument application. No programming or separate instrument drivers are required.

Power Analyzer App

The Power Analyzer App supports the Keysight IntegraVision PA2200 Series power analyzers. You can use the easy-to-use BenchVue interface to connect, control, and visualize your power analyzer measurements and analyses easier than ever before.

Measurement Viewing

Measurements and analysis results show present values at the right side of the screen. After configuring the desired measurements and analyses in the Instrument Settings, switch to the Data Logger to log data for both the measurements and the analyses.

Quickly configure your Keysight power analyzers and see your measurements across multiple channels with one simple interface.

Easily configure parallel channels and visualize data logs of current, voltage, power, measurements, and analyses.

BenchVue Power Analyzer App

Control your power analyzer to set parameters, visualize waveforms, and log data over time.

Supported functionality

Power analyzer control

Instrument settings

- Configure voltage, current, and power channels and measurements
- Configure and execute harmonics, energy, efficiency, and power quality analyses
- Enable/disable display of specific signals
- View measurements in graphical and numeric formats
- Configure sync sources (offset, noise level, etc.) for each channel

Power analyzer data log

- Unrestricted voltage, current, power, measurement, and analysis log
- Logger controls

Export screen image

- Clipboard
- File (PNG/JPEG/BMP)

Export data

- MATLAB
- Microsoft Excel
- Microsoft Word
- CSV

Save and recall instrument state

Supported models

PA2201A, PA2203A

System and Installation Requirements

Computer operating system	
Windows 10, 8, 7	<ul style="list-style-type: none"> - Windows 10 32-bit and 64-bit (Professional, Enterprise, Education, Home versions) - Windows 8 32-bit and 64-bit (Professional, Enterprise, Core) - Windows 7 SP1 and later 32-bit and 64-bit (Professional, Enterprise, Ultimate, Home Basic, Home Premium)
Computer hardware	Windows 10, 8 and 7 <ul style="list-style-type: none"> - Processor: 1 GHz or faster (2 GHz or greater recommended) - RAM: 1 GB (32-bit) or 2 GB (64-bit) (3 GB or greater recommended)
Interfaces	USB, GPIB, LAN, RS-232
Display resolution	1024 × 768 minimum for single instrument view (higher resolutions are recommended for multiple instrument view)

Additional requirements

BenchVue requires a VISA (Keysight or National Instruments) when used to connect to physical instruments. Keysight IO Libraries Suite, which contains the necessary VISA, will be downloaded and installed automatically when BenchVue is installed if needed. IO Libraries Suite 16.3 or newer is recommended. IO Libraries Suite information is available at: www.keysight.com/find/iosuite

Mobile devices

Apple iPhone, iPad, iPod Touch all models; iOS 6.0 and later.
Android phone and tablets; Android 2.3.5 and later.

With BenchVue, It's as Simple as:
Click. Capture. Done.
